Gin is fashionable again. There's a definite emphasis on high quality gin as the base spirit in cocktails or used with quality mixers. It has also been accelerated with the explosion of micro distilleries and gin bars throughout the country.

Often known as the "Vodka for grown-ups" its distinctive smell sets it apart from its odourless neighbour at the bar. The trend for more premium gins has led to an emphasis on style and service. For this reason we have selected a few stem glasses that are suitable for the ever growing number of gins on the market.

Along with the stem glasses we have included something different, why not use a glass modern cup (Voluto) or a wine carafe (Cascade) all designed to add style and interest.

On the next page you will also find some great premium tumblers and some super tough Fully Tempered Hiballs, something for every venue.
