The Macaron collection evokes the pleasure of a perfect food and wine pairing through its gourmet name and its remarkable shape. Its bold, rounded contours are ideal for wine. Their potency is reinforced by the two chambers of the glass. The elegant, dazzling shape of the champagne glasses, which are neither flutes nor coupes, is designed to release the aroma of effervescent wines and entice you to have a taste.

Macaron is made from Krysta, see page 264 For more information

Picture Features: 60cl Wine Stem, 30cl Flute, Lazzo Cutlery and Concrete Dinnerware.

○ A cold cut rim complements the rounded upper bowl finish which is designed to hug the lips when drinking.

A natural gauge at 125ml is perfect for dining and wine enjoyment.
 1: Large surface area for oxygen contact (on average 10% more than a classic tasting glass) for perfect aeration of young wines.
 2: A unique aromatic chamber, wider than it is tall and bubble-shaped for less intense but subtler aroma perception.

A beautiful fine and seamless stem.

Extra-flat base brings increased stability and the reduction of water deposits following dishwashing.

Distinctive and unique. The design of the Macaron flute offers a striking mid point between a coupe and flute and is nucleated to maximise visual appeal.

Open Up has a revolutionary design, created for young wines, including the new world (Australia, Chile, California, etc.) served by the glass. These glasses are fiendishly effective. Their shape creates an accelerated decanter effect that encourages aromas to develop. A large surface for oxygenation that closed wines require, a lower part where aromas can develop, and an upper part of the glass that then concentrates the aroma, all come together to allow instant enjoyment.

Glasses in the Oenologue Expert collection are, down to the smallest detail, designed to facilitate tasting. With an elegant and unique shape, they were designed by Dany Rolland, Bordeaux vineyard owner and reputed oenologist. All the criteria were studied one by one to create the ideal glass: nose, fruit, aromas, mouth feel, feeling in the hand, weight, length of the stem, etc. And so the Oenologue Expert was born, featuring a universal character: each of the wines on your menu will express their full flavour in this collection. This glass demonstrates remarkable durability and delicacy.

At the summit of a long and narrow stem, the bowl of glasses from the grands cépages collection are available in several sizes. They can thus enhance the greatest grape varieties, in all their diversity: from the powerful tannins of cabernet sauvignon to the sweetest and fruitiest chardonnay. With their generous silhouette, their sparkle, and their perfect purity, they transform wine tasting into a unique experience, and combine delicacy with durability. Pair with tumblers from the primary collection.

The Arom'Up collection has been created to boost the aromas found in wine. Their shape is entirely designed to preserve these delicate and volatile flavours: the wine oxygenates perfectly in the expertly-dimensioned aromatic chamber and releases its aromas on the second nose. Attractive, light, and fine, the four glasses and the flute provide a natural measure at the break in the bowl, which can be used for precise and expert service at the table.

Triple Lined

Princesa

Vina

Savoie

Triple lined glasses

To meet the needs of the busy professional we have created a number of glasses with a TRIPLE LINE marker for wine service.

Lined at 250ml, 175ml & 125ml, the glasses are designed to ensure a venue can offer the legally required messares without using a jigger, making it easier and quicker for staff to serve.

The Strong one ...

Princesa is the perfect option for venues that require operational strength and longevity. The bowl shape is designed to air quickly to ensure speed of use.

The Classic one ...

Understated, approachable and effortless describe the Vina triple lined glass. Perfect for all venues, from stylish country eateries to modern bars.

The All Rounder ...

Savoie is the easy option, the simple bowl is matched to a robust column stem, a good option for pubs, bars and hotels.

Fully Toughened / Fully Tempered

**The Classic one ...**

Elisa is excellent for those venues that require a Classic design that compliments all types of decor and surroundings.

The Geometric one ...

Lineal is perfect for Contemporary bars and restaurants. The angular lines make a stylish statement.

The All-Rounder ...

Princesa is the great all rounder. The elegant open bowl design is quick to dry and is a great bar and table glass.

The Modern one ...

Domaine brings the classic tulip bowl shape up to date. The fuller bowl with a gentle tapering chimney gives a pleasing aesthetic perfect for casual dining.

Our Fully Toughened / Tempered stemware ranges offer an increased life span, up to 15 times longer. They also bring increased strength, thermal shock resistance and safer breakage pattern, all of which bring true added value to any venue requiring a performance product.

- Savings in terms of budget and restocking costs: a fully toughened glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

- Fully toughened products are resistant to variations in temperature of 135°C: they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

- Completely safe for service: when a shock or series of shocks manages to rupture the exterior shell of the fully toughened glass, the resulting broken glass shards are not sharp to the touch.

"Wine by the Glass"

As the wine market grows so does the need for improved service in more casual venues. Our 'Wine by the Glass' offer is designed to help those venues by giving them a number of options of Lined & CE marked glasses, thus allowing them to serve legal measures of wine to the customer with minimal fuss. Princesa is up to 5 times stronger than normal glasses making it the perfect glass for busy city centre venues. Below is just an example of some of the Lined & CE stamped stems available, should you require anything different we would be happy to discuss your needs.

Seattle

Calice Ducale

Seattle and Calice Ducale are both manufactured using the one piece pulled technique. This process gives the glass a heavier feel and allows the glass to capture the light to give added interest.

Calice Ducale

Bead Rim
Hot cut finish to the rim.

Bowl Shape
Differing capacities suitable for a variety of venues.

One Piece
Each glass is formed in a single process.

Large Foot
Increased glass forms at the base to give a 'chunky' feel to the glass.

"Wine by the Glass"

As the wine market grows so does the need for improved service in more casual venues. Our 'Wine by the Glass' offer is designed to help those venues by giving them a number of options of Lined & CE marked glasses, thus allowing them to serve legal measures of wine to the customer with minimal fuss. The Seattle and Calice Ducale collections offer venues a 'one piece pulled stem' solution for their bar or table. Here is an example of some of the Lined & CE stamped stems available, should you require anything different we would be happy to discuss your needs.
